Приложение 1

1. The purpose of the entrance exam for a group of educational programs

Admission of for citizens to study at ALT University named after Mukhamedzhan Tynyshpayev JSC on a paid basis is carried out based on the results of an interview conducted by the admissions committee during the calendar year.

The goals of the entrance exam (interview) for the Educational program 7M11351 - Organization of transportation, traffic and operation of transport, is to determine the theoretical and practical preparedness of an applicant for a master's degree, the level of compliance with knowledge, skills and abilities with the requirements of study in a master's degree in the field of preparation.

2. Regulations for conducting an entrance exam (interview) for a master's program in a group of educational programs

The duration of the entrance exam (interview) is 30 minutes, during which the applicant is interviewed and answers questions from a commission approved by the President-Rector, consisting of 3 members.

At the applicant's choice, the entrance exam (interview) is taken in Kazakh, Russian or English.

Persons who did not appear for the entrance exam (interview) for a valid reason (illness or other circumstances confirmed by documents) are allowed to participate on other days in accordance with the approved interview schedule.

The interview is conducted in person/remotely with the mandatory use of video communication. The video recording is stored in the archive for no more than three years.

During the interview process, to clarify the knowledge of the candidate/applicant, additional questions may be asked both on the content of the interview question and on any sections of the subject within the program.

The interview protocols are submitted to the executive secretary of the admissions committee immediately after the completion of the interview.

All controversial issues related to the interview are resolved in accordance with the established legislative procedure of the Republic of Kazakhstan.

3. Interview assessment criteria

The interview procedure is documented in a protocol of the established form, in the form according to Appendix No. 1, which records the questions to the applicant and the results of the interview.

Evaluation of candidates/applicants is carried out according to the system adopted by the University according to Table 1. The passing score is the decision of the commission on the sufficient level of candidates/applicants for further studies in the master's program. Each interview decision is signed by the committee members.

The minutes of the interview of those admitted to the University are kept in their personal files.
